

## MS904

R4 BACKHOE/INDUSTRIAL

Modified R4 tread pattern for applications combining high off-road traction and excellent on road performance.

- ▶ Tread design optimized with self-cleaning mud breakers
- ▶ Center tie bar reduces vibration during over-the-road driving
- ▶ Deep undertread for improved puncture resistance
- ▶ Wear and cut-resistant compound
- ▶ Increased net-to-gross for long tread life

## MS901R

R4 RADIAL BACKHOE/INDUSTRIAL

Aggressive R4 tread pattern for applications requiring high traction.

- ▶ All-steel radial construction provides superior performance to bias
- ▶ Steel belts protect from punctures
- ▶ Wide tread design for increased flotation
- ▶ Wear and cut resistant compound
- ▶ Reinforced bead and sidewall for excellent stability

## MS906

R4 SKID STEER

Deep R4 tread pattern designed for skid steer, backhoe and telehandler applications.

- ▶ Full, flat profile with self-cleaning stepped tread improves performance
- ▶ Center tie bar reduces vibration during over-the-road driving
- ▶ Deep undertread for improved puncture resistance
- ▶ Special cut-resistant compound improves wear and reduces tread chunking

## MS906R

R4 RADIAL SKID STEEL

Aggressive R4 tread pattern for applications requiring high traction.

- ▶ All-steel radial construction provides superior performance to bias
- ▶ Steel belts protect from punctures
- ▶ Wide tread design for increased flotation
- ▶ Wear and cut resistant compound
- ▶ Reinforced bead and sidewall for excellent stability

## MS901

R4 BACKHOE/INDUSTRIAL

Aggressive R4 tread pattern for applications requiring high traction.

- ▶ Wide tread design for increased flotation
- ▶ Wear and cut-resistant compound
- ▶ Deep undertread for improved puncture resistance
- ▶ Reinforced bead and sidewall for excellent stability

MAXAMTIRE.COM

MAXAM Tire's dedicated team of engineers, local sales representatives, along with manufacturing and distribution partners continuously analyze the market to ensure our product portfolio meets the requirements of today's market and your customers. Complete customer satisfaction is the goal of MAXAM Tire, driving our desire to continuously innovate and deliver quality products. With confidence and pride, we stand behind our reputation for delivering exceptional product quality, reliability, performance and value.

## MS900

BACKHOE/INDUSTRIAL

Rib tread design for 2WD backhoe steer axles.

- ▶ Wide tread design for increased flotation
- ▶ Wear and cut-resistant compound
- ▶ Deep undertread for improved puncture resistance

## MS902

R1 BACKHOE/INDUSTRIAL

Modified R1 tread pattern for excellent traction and flotation in soft underfoot conditions.

- ▶ Tread design optimized with self-cleaning mud breakers
- ▶ Center tie bar reduces vibration during over-the-road driving
- ▶ Deep undertread for improved puncture resistance
- ▶ Wear and cut-resistant compound

## MS907

L5 SKID STEER/BACKHOE

Extra-deep, aggressive L5 tread pattern designed for skid steer, backhoe and telehandler applications.

- ▶ Full, flat profile with self-cleaning stepped tread improves performance
- ▶ Deep undertread for improved puncture resistance
- ▶ Special cut-resistant compound improves wear and reduces tread chunking
- ▶ Increased net-to-gross for maximum tread life and lowest cost-per-hour

## MS907R

L5 RADIAL SKID STEER/BACKHOE

Extra deep tread pattern for applications requiring high traction and increased tread life.

- ▶ All-steel radial construction provides superior performance to bias
- ▶ Steel belts protect from punctures
- ▶ Wide tread design for increased flotation
- ▶ Wear and cut resistant compound
- ▶ Reinforced bead and sidewall for excellent stability

## MS916

### R4 SKID STEER

Deep R4 tread pattern designed for skid steer, backhoe and telehandler applications.

- ▶ Deep undertread for improved puncture resistance
- ▶ Special cut-resistant compound improves wear and reduces tread chunking

## MS917R

### L4 RADIAL SKID STEER

Deep, block-style tread pattern for applications requiring high traction and increased tread life.

- ▶ All-steel radial construction provides superior performance to bias
- ▶ Steel belts protect from punctures
- ▶ Wide tread design for increased flotation
- ▶ Wear and cut resistant compound
- ▶ Reinforced bead and sidewall for excellent stability

## MS918R

### RADIAL SKID STEER/BACKHOE

All-steel-radial, non-directional traction tire for skid steer and backhoe applications.

- ▶ High net-to-gross pattern provides exceptionally long tread life
- ▶ Lug siping improves traction in loose soil or snowy conditions
- ▶ All-steel-radial casing evenly distributes tire load for high flotation and minimal ground disturbance
- ▶ Steel belt-stabilized tread and provide high resistance to puncture and impact

## MS705

### CONSTRUCTION PRO

Premium 3-stage solid skid steer tire. Ideal for the most extreme OTR and construction applications. Extra-deep tread allows for 3 to 5 times longer tire life vs. pneumatic.

- ▶ 3-stage, all-rubber tire construction featuring a self-cleaning R4 tread pattern designed for maximum chunk resistance
- ▶ Zero maintenance and downtime
- ▶ Aperture (AP) sidewall configuration designed to improve operator comfort
- ▶ Self-cleaning R4 tread design for maximum traction

## MS706

### CONSTRUCTION PRO

Premium 3-stage solid skid steer tire designed for extreme OTR and construction applications.

- ▶ 3-stage, 100% rubber construction
- ▶ Zero maintenance solid construction
- ▶ Solid centerline provides smoother running on hard surfaces and better chunk resistance on rocky ground

## MS709

### CONSTRUCTION PRO

Solid telehandler tire provides maintenance free performance and industry leading tread life.

- ▶ Extra-deep, aggressive non-directional traction pattern
- ▶ Reinforced centerline eliminates lug flexing and tearing
- ▶ Specialized tread compound runs cooler and resists wear and chunking
- ▶ Zero maintenance airless tire construction
- ▶ Available as the tire-only or mounted assemblies for most telehandler machines

## MS905

### R4 GRADER/TELEHANDLER

Aggressive R4 tread pattern for use on graders and telehandlers where high traction is required.

- ▶ Tread design optimized with self-cleaning mud breakers
- ▶ Center tie bar reduces vibration during over-the-road driving
- ▶ Deep undertread for improved puncture resistance
- ▶ Wear and cut-resistant compound

## MS915

### GRADER/TELEHANDLER

Deep, non-directional traction pattern for telehandler and grader use.

- ▶ Excellent traction in all off-road conditions
- ▶ Thick undertread for improved puncture resistance
- ▶ Wear and cut-resistant tread compound
- ▶ Wide, flat footprint profile for maximum stability and wear
- ▶ Increased net-to-gross and tread depth for highest tread life

## MS908

### WHEELED EXCAVATOR

For use on wheeled excavators where traction and stability are required.

- ▶ Self-cleaning, open tread with mud breakers provides improved traction
- ▶ Reinforced sidewall for high stability and cut resistance
- ▶ Centerline tread tie bars reduces vibration during over-the-road driving

## MS909

### MULTIPURPOSE

For use in loader, earthmover and agricultural applications where high traction is required.

- ▶ Wide, open tread design for maximum flotation and traction on soft terrain
- ▶ Reinforced sidewall for high stability and cut resistance
- ▶ Center tie bar minimizes roading vibration
- ▶ Cut and wear-resistant tread compound

## MS910R

### MULTIPURPOSE RADIAL

For use in loader, earthmover and agricultural applications where high traction is required.

- ▶ Versatile non-directional, off-the-road tread pattern
- ▶ Excellent on-road suitability
- ▶ All-steel radial construction for maximum durability, stability, traction, and comfort
- ▶ Special self-cleaning design with dome mud breakers

## MS922

### E7 PAVER

Standard E7 rib pattern maximizes ground contact and tread life while minimizing compaction.

- ▶ Low pressure, high flotation E7 pattern
- ▶ Paver compound resists chemical degradation
- ▶ Wear and cut-resistant tread compound

## MS925

### LIFTXTRA AERIAL LIFT

High-traction R4 pattern provides excellent performance in all ground conditions.

- ▶ Self-cleaning, aggressive R4 pattern with deep lug grooves provides excellent traction and handling
- ▶ Square shoulder design and wide footprint for maximum safety and stability in heavily loaded conditions
- ▶ Extra thick sidewall gauge for exceptional resistance to cutting

## MS926

### TRENCHER

Designed for exceptional traction and flotation in muddy, off-road conditions. Ideal for use on trenchers and truck-mounted forklift applications.

- ▶ Aggressive traction pattern ideal in muddy ground conditions
- ▶ Wide tread profile for stability and flotation
- ▶ Reinforced sidewall improves impact resistance and protects rim from damage

## MS938

### R3 COMPACTOR

High flotation R3 pattern provides minimal ground compaction while providing excellent traction in field and paving applications.

- ▶ Excellent traction in all conditions
- ▶ Thick undertread for improved puncture resistance
- ▶ Low pressure minimizes soil disturbance
- ▶ Wear and cut-resistant tread compound

## MS903

### R4 BACKHOE/INDUSTRIAL

Modified R4 tread pattern for excellent traction and flotation in soft underfoot conditions.

- ▶ Tread design optimized with self-cleaning mud breakers
- ▶ Wear and cut-resistant compound
- ▶ Deep undertread for improved puncture resistance
