#### **PURCHASING OPTIONS**

4 purchasing options to choose from

#### **TIRE ONLY**

Deliver tires, get pressed locally.

## NEW TIRE & WHEEL

Tire and wheel assembly for specific machine.

## CUSTOMER PROVIDED WHEEL CHANGE OUT

Send us your wheel assembly, we return with a new tire on it.

## WHEEL EXCHANGE

We send you a tire and wheel assembly, you return your old tire and wheel to us.

#### MAXAM TIRE

300 Rosewood Drive. Suite 102.

Danvers, MA 01923 USA

## **EVOLUTIONARY PERFORMANCE**

### MS708

#### SOLID OTR PRO

Engineered for applications operating in waste and recycling, scrap metal, glass recycling, foundry, and more:

- Patented "Double-D" apertures for extra flex in the sidewall, while eliminating stress cracks
- · 3-stage design with specialized heavy-duty compound for maximum heat and cut resistance
- · Zero maintenance and downtime for maximum productivity
- · Available in smooth or traction, aperture or non-aperture tread
- Mounts on standard multi-piece earth mover rims

#### **50% TREAD** RUBBER

Deepest wearable tread in the market

#### **25% HEAT** DISSIPATING **BODY**

Deliver effective heat dissipation and superior ride quality

solid tire in its class

Developed with an all-natural rubber base construction

Reinforced with four radial bead base for the greatest tensile

#### **PATENTED DOUBLE-D APERTURES**

Provide additional flex in the sidewall

Absorb shocks and increase application longevity

Minimize stress cracks

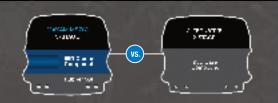

#### 25% NATURAL BASE

strength

#### **MAXAM's Aperture** Placement vs. Others

MAXAM's apertures are placed inside the 65D center compound, where heat dissipates faster, allowing proper flexing and minimizing stress cracks.

## MS705

#### **CONSTRUCTION PRO**

Premium solid 3-stage skid steer tire for the most severe OTR and construction applications. 3-stage, all rubber compound construction combines ultimate tread cut resistance with a comfortable ride:

- Zero maintenance and down-time
- Aperture (AP) sidewall configuration designed to improve operator comfort
- Self-cleaning R4 tread design for maximum traction

## MS706

and construction applications. Bonded tire/high carbon steel wheel assembly allows for easy bolt-on installation:

- · Available in smooth or traction tread designs with or without apertures for maximum versatility
- · Zero maintenance and downtime

### MS709

### **CONSTRUCTION PRO**

#### Solid telehandler tire provides maintenance free performance and industry leading tread life:

- Extra-deep, aggressive non-directional traction pattern
- · Reinforced centerline eliminates lug flexing and tearing
- · Specialized tread compound runs cooler and resists wear and chunking
- · Zero maintenance airless tire construction
  - No flats due to punctures or sidewall damage
  - No routine air pressure checks
- · Available as tire-only or mounted assemblies for most telehandler machines
