MX550A

The **MX22OV** all-position mixed service radial is engineered with a wear and cutresistant tread compound, providing long-lasting performance for dump trucks even in severe conditions. Featuring a solid shoulder design to withstand lateral scrubbing and a deep tread depth, this tire enables superior durability and reliability.

PERFORMANCE

TRACTION

MX220V FEATURES

• SOLID SHOULDER DESIGN Withstands lateral scrubbing in severe conditions.

• CUT AND WEAR RESISTANT COMPOUND

Prevents tread damages, enabling maximum performance and durability.

STONE PROTECTION DESIGN Stone protection buttone

Stone protection buttons prevent stone drilling, ensuring maximum tire life and belt protection.

MINIMUM ROLLING RESISTANCE FOR OPTIMAL FUEL ECONOMY

MX220V / ALL-POSITION MIXED SERVICE

STONE PROTECTION

Stone protection buttons within tread voids to safeguard against stone drilling, ensuring maximum tire life and belt protection.

CLOSED SHOULDER DESIGN

Withstands lateral scrubbing in severe conditions.

HEAVY-DUTY TREAD COMPOUND

Cut and wear-resistant compound prevents tread damage and cuts.

HEAVY-DUTY BEAD

CONSTRUCTION

Ensures proper mounting and even pressure for maximum casing durability and life.

HEAVY-DUTY ALL-STEEL BELT PACKAGE

Heavy-duty steel belts to ensure maximum durability and excellent for retreading.
