

The **MX310R** is Maxam's regional drive tire with the proprietary EcoPoint³ compound technology, delivering optimized mileage, fuel economy, and wet traction without compromise. Balancing traction and mileage with an aggressive lug pattern for even wear and traction, the **MX310R** regional drive accommodates multiple applications, even in extreme weather conditions.

FUEL ECONOMY

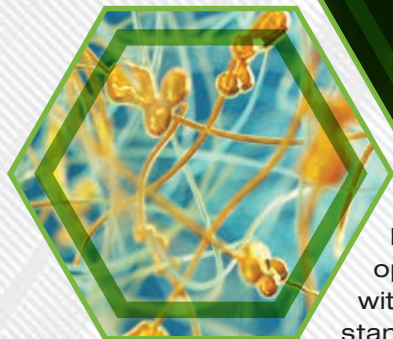

WET TRACTION

EXCELLENT RETREADABILITY

MX310R

The MX310R is engineered with our proprietary EcoPoint³ compound technology. EcoPoint³ optimizes mileage, fuel economy and wet traction without compromising performance, setting a new standard for long-haul application.

UNMATCHED WET TRACTION FOR THE HIGHEST PERFORMANCE

MAXIMUM WEAR RESISTANCE FOR LONGEST TIRE LIFE

MINIMUM ROLLING RESISTANCE FOR OPTIMAL FUEL ECONOMY

SCAN TO LEARN MORE

ALL-WEATHER BOOSTED TRACTION

Optimized center lugs design delivers maximum traction and wear resistance.

EcoPoint³ TECHNOLOGY COMPOUND

Patented EcoPoint³ compound technology enables maximum fuel efficiency and wet traction and conserves energy for enhanced rolling resistance.

EXTREME TRACTION ENHANCEMENT

Open shoulder design provides maximum traction for all weather conditions.

ENHANCED STEEL BELT PACKAGE

Delivers enhanced durability and retreadability in addition to minimum rolling resistance for fuel optimization.

EXPERTISE IN EVERY TIRE - for years MAXAM has specialized in off-the-road tires, a category that requires the highest level of engineering and manufacturing technology. Our extensive expertise in creating tires for the most challenging applications is directly infused into the design and construction of the MAXAM Truck Tire line. Each MAXAM Truck Tire embodies advanced technology and rigorous testing to ensure unmatched durability and performance. When you choose MAXAM Truck Tires, you're equipping your fleet with a legacy of engineering excellence.
