

The MT152 is an enhanced Z-Lug pattern, combining the high traction of a traditional Z-Lug but with increased tread depth and footprint. Features a heavy-duty carcass for stability and durability, and a cut and wear-resistant tread compound.

- ▶ All around excellent traction, excelling in loose ground conditions

▶ Heavy-duty carcass provides stability

▶ Stepped tread pattern for improved clean out
- ▶ Cut and tear-resistant compound

▶ Increased tread depth and net-to-gross for improved tread life
